MT. STERLING, KENTUCKY, WEDNESDAY, AUGUST 13, 1913.

NUMBER 6

Mr. Buford Boone Weds Mrs. Anna Warner Mallory.

Mr. Buford Boone and Mrs. Anna Warner Mallory surprised their friends by being married Thursday night. The ceremony was performed in the presence of only a few friends at the residence of Rev. H. D. Clark.

Mr. Boone who is a government employe at the Post Office is a splendid, deserving and popular young man who by his courteous treatment of the patrons of the office has made himself one of the best liked men in the service.

Mrs. Mallory, is an attractive young woman being the eldest daughter of Mr. R. R. Warner and will make the man of her choice a home of which he may well be proud. The Advocate extends best wishes.

Will Be Great Improvement

To Appearance of the City.

Dr. W. B. Robinson, one of our popular veterinarians, has leased the old graveyard property on East High street, belonging to the city, and will fence same. This property has not been used for a graveyard for many, many years and nearly all of the bodies buried there have been removed. Brush and weeds have been allowed to grow for years and the place has been an eyesore for a long time. It is the Doctor's intention to cut the brush and weeds and use same for a pasture. We think the City Council did a wise thing in leasing the property to Dr. Robinson.

HEAVY DAMAGES

Asked in Suit Against Chesapeake & Ohio Railway Co.

Outgrowth of McCormick Accident at Owingsville Crossing

County Judge G. A. McCormick has filed suit in the Montgomery Circuit Court against the Chesapeake & Ohio Railway Company, O. N. Garr, engineer and Stanley Squires, fireman, asking damages in the sum of \$30,000.00 for injuries sustained December 12th, last when a fast bound C. & O. passenger train struck a buggy occupied by the plaintiff and daughter, resulting in the latter's death and the plaintiff's injury, so he alleges. At the same time Mr. A. Sid Hart, as Administrator of Florence McCormick, deceased, filed suit against the same parties asking damages for her death, in the sum of \$20,000.00.

A recovery is asked upon the alleged grounds that the requisite crossing signals were not given, that a proper lookout was not maintained and that the train, being late, was running at a high and dangerous rate of speed.

The plaintiffs are represented by Attorneys O'Rear & Williams, of Frankfort, and County Attorney Earl W. Senn, of this city.

Off For the Races.

Messrs. Chas. Bean, A. B. Setters, John McCormick, H. B. VanEvera, C. B. Dale and P. L. Hensley left Monday for Indiana with a car load of horses which they will race on the Indiana-Illinois circuit. Among those taken were Lucile Brooks, Albert O., Peter Patchen, Hugh Miller, Onyree, Happy Todd and several others.

Gone to the Cities

To Purchase Stock.

Miss Bettie Roberts and Mrs. R. F. Mastin left Sunday for a ten days' trip to Louisville, Cincinnati, Indianapolis and Chicago, where they will purchase the fall and winter stock for Roberts & Mastin, milliners. Their line will be larger and better than ever before.

Box Supper.

There will be a box supper Saturday night at Lower Spencer school house. Everybody invited to attend.

Superintendent of Anderson County Schools Arrested.

A warrant for the arrest of J. W. Baxter, County School Superintendent, of Anderson county, was sworn Saturday in Lawrenceburg by Superintendent of Public Instruction Hamlett, charging Baxter with trafficking in examination questions for school teachers. Baxter is accused of having sold the questions to E. D. Burton, a school teacher, of Anderson county, who made a confession in Louisville. Burton alleges that Baxter broke the seal of Envelope and turned the questions over to him to be sold. He was to charge \$50 a set, \$30 of which was to go to Baxter and the other \$20 to be retained by Burton.

New developments have arisen and it is likely that other arrests will be made within the next few days, as Superintendent Hamlett and the detectives have discovered that several other persons are implicated in an entirely different way from that of Baxter and Burton.

COUNT POSTPONED

Election Commissioners Meet and Adjourn Until Saturday.

Ballot Box Opened and 12 Questioned Ballots Not Found.

The Election Commissioners of Clark county, after several adjournments, again met Tuesday afternoon in Winchester and upon the order of Judge Benton opened the ballot box of the Goodes precinct. This precinct had 12 ballots which were questioned by the election officers, but when the box was opened these questioned ballots were not to be found. The court then issued a rule against the election officers of that precinct and the County Clerk to produce the said missing ballots. And the Election Commissioners then adjourned until Saturday.

As to Debtors.

On the subject of debtors Homer Hoch prints this "box" on the Marion (Kan.) Record's front page: "Some folks can't pay their debts when due, but regret it, and pay as soon as they can. Heaven prosper 'em. Some folks can pay their debts, but never do. Heaven be merciful to 'em. Some folks pay their debts cheerfully. Heaven bless 'em. Some folks pay their debts, but roar about it and abuse their creditors. Heaven pity 'em. And nothing shows folks up more than the attitude they take toward paying, or trying to pay, their debts."

A newspaper subscription past due is a debt, and one that should be, and generally is, paid cheerfully.

How about yours, if in arrears? Look at the date following your name on the margin of this paper (or its wrapper, if it comes to you in a wrapper), and if in arrears, please call and settle or send remittance by mail.

Prisoner Set Fire to County Jail.

Dr. Motley, charged with murder and brought to this city from Morgan county for safe keeping, started quite a commotion at the county jail Monday night by setting fire to the mattress in his cell, and when the door was unlocked made an effort to escape but was quickly subdued by the officers and returned to his cell. The fire did little damage.

Funeral services were held at her late residence in this city on Monday and the remains taken to Paris for interment.

Negro Woman Cut and Shot in Slingtown Saturday Night.

Virginia Ewing, colored, was seriously cut and shot in Slingtown, a negro suburb, Saturday night by Mary French, also colored. It is claimed the Ewing woman was held by negro men while she was assailed by the other negroes. The names of the negroes that held the woman have not been learned and their identity is as yet unknown. The injured woman seems to have a very small chance for recovery as she was literally slashed to pieces with a razor besides being shot several times. The French woman was caught early Sunday morning by Policeman Tipton near Winchester, which city she was trying to reach to board a train for Cincinnati. She was brought back to this city and lodged in the county jail.

CONTEST IS FILED

Over School Trusteeship in Third Educational District

Illegal Votes, Ineligibility and Other Grounds Relied Upon

As predicted in our last issue, Mr. W. H. Ramsey has instituted suit in the Montgomery Circuit Court, against Mr. W. W. Eubank alleging he (Ramsey) was legally elected trustee of sub-district No. 1, of Educational District No. 3 of Montgomery county, but that thirty-three illegal votes, most of them colored, were cast for Mr. Eubank, making him appear the winner on the face of the returns. It is also alleged that Mr. Eubank is a resident of Mt. Sterling and does not live in the sub-district aforesaid and is therefore ineligible to hold the office. Owing to the prominence of the parties, the progress and outcome of the suit will be watched with interest.

Jim Deaton Guilty;

Gets Life Sentence.

The jury in the case of Jim Deaton, charged with the murder of Ed. Callahan, found him guilty at Winchester, Saturday, and when the verdict was read his facial appearance did not change.

This is the third conviction in the case, all by Madison county juries, D. E. Deaton and Andrew Johnson having been convicted in the past two weeks.

Paris Negro Arrested Here.

Will Lee, colored, of Paris, was arrested here Saturday night by Chief Gibbons and Policeman Tipton, charged with killing an aged negro in Paris Thursday. The murder is said to be the most brutal in the history of Bourbon county, the old negro being beat in the head with a rock until his brains were beat out. Robbery was said to be the motive. He was arrested here within 30 minutes after the local authorities were notified, which speaks well for the Mt. Sterling police force.

NEEDED AMENDMENTS.

A great deal is appearing in the papers of the State regarding amendments of the State Primary Law, the most general amendment suggested being a change of the date. The first Saturday in August is a very bad date and our belief is that some time during the first week in June would be much more preferable. The candidates could then make a campaign during April and May and sufficient time would elapse before the November election for all soreness to disappear.

Another amendment, which we have not seen suggested, and which we think would be of material benefit, would be to provide some means whereby those without opposition could be declared nominees without their names appearing on the ballot. There is no sane reason for lengthening the ballot by printing thereon the names of a lot of candidates not opposed and it has a confusing effect on voters, particularly those of meagre education.

On the whole, however, the law is a step in the right direction and has done, and will continue to do, much to restore popular government.

Reports of the recent Fusion meetings at Lexington indicate that the movement has fizzled out and we are profoundly glad of it. We admire a straight Republican quite as much as we do a straight Democrat, but we have no patience with that bunch of patriots (?) who, being denied office in one or the other of the two great parties, are now endeavoring to put one over on the "dear peepul," of whom they really think about as much as does the boss of Tammany Hall. The citizens of Fayette county should not again be fooled by this mongrel set of office-seekers.

The financial statement of Montgomery county for the past fiscal year will be found in this issue and we urge the taxpayers to carefully peruse it, believing even a casual examination will furnish abundant argument for the necessity of adopting the commission plan of government.

The express companies have been ordered to reduce their rates sixteen per cent. and the maximum weight of packages that can be sent by parcel post has been increased from eleven pounds to twenty. It begins to look like the public is gradually, but surely, coming into its own.

Heretofore we have doubted Winchester's boast of being the largest city in America, but it must be so. Didn't we count our vote in the recent primary in two hours, and are they not still counting?

One advantage a "little village" has over a great metropolis is that in the former the primary vote can be and was counted in two hours, while in the latter it seems to be an all-summer job.

To those who have been so generous in their praise of the first issue of our Monthly Magazine Section we desire to acknowledge our sincere thanks.

PRETTY GOOD.

McCormick Lumber Company Gets Lumber Contract.

The S. F. McCormick Lumber Company was awarded the contract for furnishing the lumber for the new Independent tobacco warehouse, now in course of erection at the intersection of South Limestone and South Upper streets, opposite the State University campus. This is one of the largest contracts of the kind ever let in this city, as half a million feet of lumber will be used in construction of the building. The foundation of the new structure is practically completed, and it will be rushed to completion in order that it may be ready for occupancy by the time the tobacco market opens here late in the fall.

The S. F. McCormick Lumber Company was established in Lexington about three years ago, its plant being located on East Seventh street. Mr. Fred McCormick, who is president of the company, stated to the Herald that besides this big deal, his firm also had been awarded contracts to erect several large tobacco barns in the county, among them being a 15-acre barn for William Tipton, of Scott county, a 12-acre barn for Cloud Bosworth on the Versailles pike, and a 10-acre barn for Ray Tucker in the same section.—Lexington Herald.

Mr. Sam McCormick, son of County Judge G. Allen McCormick, is also connected with the above company. Both of the gentlemen formerly lived here and have many relatives and friends who will be pleased to learn that they are prospering in their new home.

Disastrous Drouth.

Kentucky is suffering the most disastrous drouth experienced in many years. The western part of the State is parched, while the central part has fared but little better. The conditions in the eastern part of the State are not so bad. In his report of the crop condition, Commissioner of Agriculture Newman says the State has been without rain practically since August 1, and the maturing crops need rain or they will be destroyed. Already some crops have been cut 50 per cent., and in some sections even more. The report says in part:

"Corn has dropped to a condition of 63.6 per cent. for the entire State, many sections reporting less than one-half of the usual crop possibility. Owing to an error the tobacco crop is not complete, but from the few reporting on this crop a condition of 60 per cent. for dark tobacco and 65 per cent. for Burley tobacco is indicated. Pasture conditions are reported bad—67 per cent. for bluegrass, 69 per cent. for orchard grass and 67 per cent. for clover."

Local Horse Continues to Win.

Emerald Ray, the great stallion of Mr. Ray Moss, proprietor of Green Briar Stock Farm, has won the following ribbons since winning at the Montgomery County Fair:

At Harrodsburg he won the Saddle Stallion Class and was second to Mary Yandell Fox in the stake. At Danville he won the Stallion Class, the Combined Stallion Class and was second to Mary Yandell Fox in the stake. This horse has been shown five times in the Stallion Class and has won every time he was shown. He has been shown twice in stakes and was second both times to the wonderful mare, Mary Yandell Fox. Emerald Ray will be shown at Lexington Thursday. Mr. Moss has many friends who will be pleased to learn of his horse having such splendid success.

Wonderful New Adding Machine.

The American is the name of a new adding machine just being introduced in this section. This machine will add, subtract and multiply, but the most pleasing thing about it is the price, which is only \$35. Mr. Thomas Kennedy, the druggist, has secured the agency for the machine in this and several surrounding counties and would be pleased to demonstrate the workings of it to any interested parties. If you are contemplating buying an adding machine see this one before you place your order.

The Reasonable Fear.

"Unless the unexpected happens with uncommon frequency, the first ship will pass through the Panama Canal October 1 of this year. If need arises, our warships can be locked through ahead of that date. The big ditch will not be open for regular use before January or February following.

"This announcement goes far to end all reasonable fears of war with Japan. If Japan meant to fight she would have struck before, while the canal was openable and the Atlantic fleet was farther from San Francisco than the Japanese navy. Since she did not attack under those favorable circumstances it may be presumed she will not attack at all unless there is a decided change in the temper of her Government.

"The approaching completion of the canal brings up another question, the question of tolls. The present law, permitting the coastwise shipping trust to use the big ditch without charge, while collecting tolls from all other ships, is in flagrant violation of the Hay-Pauncefote treaty with England, and is an inexcusable breach of national faith. England's protest against this law is just. Will Congress recognize and correct the error of the Taft Administration, or will it wait until a court of arbitration gives its predestined verdict against the vicious privilege?"—Chicago Journal.

There has never been any "reasonable fear" of war with Japan. The danger from that source lies in the fact that her people have already realized the commercial opportunities opened to them by the completion of the canal and have made their preparations to take advantage of them. We have not. Another and real danger is that, in our greed to save a few hundred thousand through sharp practice, our credit for national good faith will be sacrificed.

Mr. Bryan and his Nicaraguan policy to the contrary and the jingoes notwithstanding, the dangers from the canal are the dangers of peace, not of war.—Louisville Times.

The State Primary Law.

A dispatch from Frankfort says it is anticipated that scores of amendments to the State Primary Law will be offered in the next General Assembly.

The dispatch goes on to say the law contains "ambiguities, both potent and latent, that will have to be straightened out." Also the candidates are practically unanimous in favor of a change of date, "some proposing a time as late as October 1."

There can be no doubt that the law as it now stands is in need of amendment. If the amending is intelligently done the changes will be welcomed. As for the date of the primary, it might be changed to advantage. Midsummer is not the most favorable time for a political canvass. An earlier or a later date would be more satisfactory from the standpoint of the rural voters.

The State Primary is a move in the right direction. The law under which it is held is somewhat crude, as it embraces provisions from two or more bills that were offered on the subject. Considering that it is obscure in some respects and not easily understood, the first primary held under it has been conducted very successfully. It has in it enough of merit to overbalance its defects, and, with some skillful mending and amending, it should better fulfill the purpose for which it was intended.

The danger is that if "scores of amendments" are offered the last state of the law may be worse than the first.—Courier Journal.

C. & O. Not Interested.

President Stevens, of the Chesapeake and Ohio Railway Company was shown an article from Martinsburg, West Virginia which said that the State was considering a deal including the ceding of certain counties to Virginia in settlement of the State debt. This article stated that the Chesapeake and Ohio was interested in this deal; concerning this statement, President Stevens said: "You can state without equivocation that the Chesapeake and Ohio has never heard of such a proposition as the one mentioned in the Martinsburg despatches, and has nothing to do with any deal of this character."

Mr. Stevens expressed surprise that anyone would in any way connect the Chesapeake and Ohio with this matter, and said that his denial could not be made too emphatic, strong or plain.

Women Disgusted.

All of Chicago is wrought up by a controversy concerning the proper thing in bathing suits for women. There are something like thirty styles proposed, of which perhaps twenty have been barred by the police. Women critics of the police aver that if there anything more ridiculous in the world than the average man in a bathing suit, they do not know what it is. Granted. In the days of ancient Greece the masculine figure was said to have been a thing of beauty, but things have changed since Homer died.

Where It Will Do Most Good.

When you go into a local store and buy goods from a local merchant you do not only get the goods. You get the thrifty town, the schools which children attend, the churches which preserve the moral atmosphere of the community, the things you enjoy and use, which you and the merchant pay for in common.

You could send the money to some other town and get the goods, but you cannot get these other things; and even if you think the price is smaller, it is larger in the long run, since you get less in return for your money.

Why teach your children that the city is the place to trade and expect to teach them that it is not the place to go? Why constantly encourage them, when they marry, to leave the home town and settle in some large place? Why be the hand to break home ties, to separate yourself from your children?

The more you spend at home the more attractive will your town be to the coming generation and the more pleasant to yourself in your old age. If you have friends, here is where they are. When you make a rover of your money you make rovers of yourself. You make your town a poorer place in which to live instead of a better one.

The money we earn let us spend in securing the largest return for it. If you send your children away they may never return. If you send your money away it may never come back. Your prosperity, your happiness, your children are likely to follow your money wherever it goes. Why not spend it where your children will grow up with it, where it will do you the most good now and give you the most comfort in the future?—Ex.

Masonic Picnic at Richmond.

On August 26th, Richmond Lodge No. 25, Free and Accepted Masons, will be one hundred years old. It has been the custom among the lodges located elsewhere to celebrate the centennial of their lodge. The Masons will therefore celebrate their centennial anniversary by having a big all-day picnic on the Normal School Campus, Richmond, Ky. Everyone is invited and expected to come to this all-day picnic. They will have excellent music of eighteen pieces, good dinner, and eloquent speakers. Prominent Masons from all over the State will be present, and it will be a day long to be remembered. Ample preparations will be made for an immense crowd. Don't fail to come, as dinner will be provided for everyone that is present. The Masons are requested to report at the Masonic Hall, Richmond, Ky., at 9:30 to receive souvenirs, then join in the parade from the Masonic Temple to the Normal School Campus. Upon their arrival at the Campus the band will give a concert, after which a brief history of the Richmond Lodge will be read. Then Gov. James B. McCreary will give a talk, after which the picnic lunch will be served by the daughters of the Masons of Richmond, Madison county and adjoining counties. The daughters of Masons will please consider this an invitation to them to be present and help serve the lunch. That night at the Masonic Temple there will be a reception and dance for the Masons and their families only. This is to be limited to the Masons and their families on account of there not being enough room in the Masonic Temple to entertain the general public.

Papers in Trouble.

On the whole, this seems to be open season for newspapers incurring the displeasure of the high and mighty. Following a whole string of libel and other actions, now pending in various parts of the country, the Governor of Louisiana has brought suit for \$100,000 against the Daily States, of New Orleans. With public censors active as never before, and with the libel and damage suits mill full of grist, publishers of the timid variety may deem it well to trim sale for awhile. But such is the brood that in the end there will be no emasculation. For this the American public ought to be truly thankful. What governmental affairs in this country would be with the newspapers muzzled entirely is not a pleasant picture to contemplate.

MARRIED THEMSELVES.

Indiana Couple, Dissatisfied With Former Knots, Tie Their Own.

News of a marriage ceremony performed in Louisville, in which there was neither minister nor Magistrate to pronounce the word which made the couple man and wife, in which there was no marriage license procured, and yet which is legal and binding in every respect, has just become known, says the Frankfort (Ind.) News.

The contracting parties were Quinn McMasters and Mrs. Della Pence. The ceremony was performed about four weeks ago. The couple literally married themselves. Their marriage pact was in the form of a contract, signed and sworn to by both parties, in which they agreed to accept each other as lawful man and wife. No preacher or official pronounced them married. The couple did not, and have not since, procured a marriage license. Yet, under the common law, they are legally married, and cannot be separated excepting by death or divorce.

Stop that waste

THE stalks and chaffs from your corn crop represent just so much life taken out of your soil. If you do not use them for feed and return them to the ground in the form of fertilizer you are getting poorer every year. If your fields and barn yard are littered with stalks and your ground is growing less fertile season after season you need an

INDIANA SILO

It will convert all your corn from the ground level to the tassels, into fresh, succulent feed and it will keep your cattle in prime condition all year round. Best of all—it will pay for itself out of what it saves for you in a single season. There will be another winter before long, with high priced feed and hard work in zero weather. Why not get ready for it by erecting an Indiana Silo before next harvest time.

We've got a mighty good proposition to make to you right now—a money saver. Give us a chance to tell you about it.

Kentucky Tuberculosis

Commission.

About two years ago a young married woman in a central Kentucky city was told by the physician that she had tuberculosis. Her husband was an industrious and thrifty man, but yet unable to pay for a regular trained nurse to care for his wife. She had to be cared for at home because of the almost total lack of hospital provisions for consumptives in Kentucky. He consequently hired a young woman in a neighbor's family to look after his wife. Some months later the wife died. The husband continued to live alone in the same house. A few months ago the man married the young woman who had nursed his wife and took her into the old home.

Possibly it was from the house itself, possibly from direct infection during her care of the man's first wife; some how the germs of tuberculosis had secured lodgment in her, and a few days ago she too died.

A political economist, disregarding the individual sorrows caused by these deaths, would point out the loss to the community in the death of these two women in the prime of life. Had they lived they may have become mothers or have been in other ways valuable members of the community. As it is the community has lost not only them, but all the future efforts of those who tried to save them.

Had there been in that city a small, properly equipped special hospital for the care of consumptives to which the first wife could have been removed and cared for at the beginning of her illness, she might have been restored to health and two lives saved. But, outside of Louisville, there is in Kentucky only one little sanatorium of ten beds for consumptives.

At the present death rate, every seventh person who reads this story will die of consumption. If you as a taxpayer believe in stopping this loss by the use of public money, the Kentucky Tuberculosis Commission at Frankfort would be glad to receive a letter expressing your cooperation.

Our job printing is different from the rest. Try us on your next order. We will please you. Advocate Pub. Co.

Montgomery Fay, Sr., aged
about 60 years, a well-known farm-
er, of the Flat Creek Section, died
Sunday. He had many relatives

afternoon.

Our ball team journeyed over to
Stepstone Sunday afternoon with
the intention of slaughtering the
team at that place. Old men who
were so fortunate as to witness
the contest, say that it brought
back memories of a barn lot trage-
dy of long ago, when they, as
boys, took a four-inch plank and
lambasted the ball to all corners of
the half-acre lot. It appears that

Stepstone put a man or two more
across the rubber than Stoops did.

A State Wide Invitation

Monster Barbecue to Be Given by J. N. Camden
at Versailles, Aug. 20, 1913

THIS meeting of farmers and their friends who are interested in the agri-
cultural advancement of Kentucky is to be held that every one in the
state may become acquainted and "rub elbows" with his neighbors and
friends. It is to be a great farmers' convention, a place where, besides
the "getting together," there will be speakers who really have something to
say to the men who get their living from the soil.

In the past a barbecue, with its huge joints of smoking juicy meat and its
bubbling steaming brogno, meant political speechmaking and a warming of
party spirit. This immense barbecue is a definite effort to give the farmers of
the state a chance to meet and get acquainted and to hear some of the strong-
est speakers in the whole country discuss vital farm questions. These speakers
will be brought to the meeting from the north, south, east and west, and, as
they are to be limited to thirty minutes each, they will be sure to send their
messages home in quick, short sentences. The list of speakers is about com-

pleted and will be given in full in the next article, which will be published
soon. Kentucky is thoroughly aroused educationally, and this meeting is an
outgrowth of this great wave of enthusiasm.

When your correspondent visited the Camden farm, just outside of Ver-
sailles, a few days ago he was shown the various points of interest that the
visitor might wish to inspect. Competent men will be in charge of each farm
department so that questions by visitors may be answered quickly.

In visiting the dairy barn, with its carefully selected herd of seventy-five
Jerseys, it was pleasing to note that the barn had originally been used for

VERSAILLES, KENTUCKY.

TO THE FARMERS OF KENTUCKY.

For a quarter of a century the great problems of
manufacturing and of transportation have been handled
upon the advice of experts--men whose accurate and
scientific knowledge extends to the minutest points.

In the past few years able men have realized
that farming could be put upon the same basis--that
instead of being of necessity a haphazard enterprise
it is one of the most scientific businesses in the
world--that it may be as accurate and as reliable as
those processes of nature upon which it depends.

It has been realized also, that the principles
of co-operation which have worked out such great
things in the industrial world, may be used with
equal effectiveness in the realms of agriculture.

To aid in the rapid spread of these ideas and
principles seems to me to be a most useful and noble
work, and one in which I would gladly have a part in
Kentucky.

With this thought, I have decided to give an old
fashioned barbecue at my home in Woodford County, near
Versailles, on Wednesday, August 20th. It will be my
aim to have matters along the lines I indicated dis-
cussed by some of the great agricultural experts of
the country, and it will be my hope that this may give
fresh impetus to the work in Kentucky for the farmers
which is already so well begun.

Every Farmer, and every farmer's wife, and every
one interested in better farming, in the state, who
feels an interest in increasing the rewards of agricul-
ture, and in bettering the conditions of farm life, is
most cordially and urgently invited to be my guest on
August 20th. This invitation is given in the spirit
of good fellowship, and the desire to help, and all
who accept it will be most warmly welcomed.

Very sincerely,

J. N. Camden

housing tobacco. It was not a show barn at all, but a thoroughly sanitary
barn, with the emphasis on the cow end of the enterprise. Out in the woods
pasture there were several bunches of fine sleek steers, some of which were
destined to help feed the hungry crowd on Aug. 20.

The woods pasture, with its giant oaks, poplars, walnuts and stately elms,
is an ideal place to handle the 30,000 people who are expected to be the guests

at the farm on the day of the barbecue. In one end of this pasture there is a
perfect amphitheater for seating those who wish to hear the speakers and the
band concert which is to be provided.

Things are happening in our dear old state--better schools are building,
better roads are being laid, Chautauqua meetings for farmers are developing,
and now a barbecue to which an invitation is given to each and every person
who believes in the welfare and the future of the agriculture of the state is an
assured fact. Men of vision are dreaming of a new Kentucky--a twentieth
century Kentucky--and all the agencies mentioned are bringing the dream
closer each day. Dreams do come true.
